◆ **58.6%** - Company reserve for the private sale & liquidity

◆ **19.7%** - LP farming on ZERO/INDA pair

◆ **15.0%** - Liquidity with partner projects

◆ **6.7%** - Investors & community

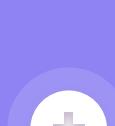

2'075'239.66 INDA
Binance Smart Chain

7'924'760.34 INDA
Ethereum locked on the company account **0 INDA** on Avalanche

How it works?

BUY DeFi token with card:

- Fiat
- Company bank
- INDA / XXX swap 0.3% AMM fee is distributed accross INDA LP
- XXX token goes to the client

SELL DeFi token to card:

- XXX token / INDA swap
- INDA / BUSD swap
- BUSD goes to company account
- Fiat goes to the clients card

Utilities

- Voting
- Staking
- LP farming
- Source of liquidity

Token distribution

- Dex
- Core team
- Partners/Advisors
- Farming
- Investors
- Public sale
- Marketing
